# Objectives

To increase awareness of pediatric cancers and blood disorders and the impact of physical impairment in the school setting.

The participant will acquire important information regarding:

- Overview of school intervention services in children with common pediatric cancers and blood disorders
- The role of school personnel in the support of students with cancer and blood disorders
- Medical, psychosocial, and educational issues related to pediatric cancer and blood disorders
- Symptoms and effects of treatments that necessitate physical therapy in students with cancer and blood disorders
- Overview of the need for rehabilitation services for children with cancer and blood disorders
- Strategies to address physical challenges in children with cancer and blood disorders
- Community and educational resources

# Special Guest Speaker

**Susan Miale, PT, DPT, PCS**, is a physical therapist and Pediatric Certified Specialist through the American Physical Therapy Association (APTA). Dr. Miale is currently a Clinical Assistant Professor in the Doctor of Physical Therapy Program at Stony Brook University.

Before entering into academia, she worked at The Rusk Institute of Rehabilitation Medicine at New York University Medical Center where she gained experience in acute care, outpatient orthopedics, neurologic rehabilitation, and both inpatient and outpatient pediatrics.

Dr. Miale then attained the position of Physical Therapy Pediatric Specialist at Memorial Sloan-Kettering Cancer Center, where she treated children with cancer in both the acute care and outpatient setting. Dr. Miale was also responsible for continued development of the pediatric oncology program and she created a screening tool to determine the need for rehabilitation services in acute care pediatric oncology. Dr. Miale was elected Chair of the APTA's Pediatric Oncology Special Interest Group in 2014 and has worked to disseminate information to the medical community at large regarding the role of rehabilitation in children with cancer.

# Location & Directions

Hilton Garden Inn, Main Campus,  
Stony Brook University, Stony Brook

Long Island Expressway to exit 62. Follow Nicolls Road (Route 97) north for nine miles. The main entrance to Stony Brook University is on the left. Turn left into the campus and proceed to the traffic light. Turn left at the light on to Circle Road. The Hilton Garden Inn will be on your left.
